Title: The Book of Prosperity

Author: Unknown

Long ago, the great seer  
Naxatilor summoned the  
Codex into the world.  
Thus began the great  
time of prosperity. The  
Codex was placed within  
the Temple of  
Singularity, there to be  
viewed by those  
requiring its knowledge.  
The seers of the land,  
led by Naxatilor,  
protected the Codex with  
a forcefield. Only those  
upon sacred quests for  
wisdom are allowed to  
reach and read the  
Codex. Within the Codex  
is written the one right  
and true answer to any  
problem. One has but to  
reach the Codex, read  
it, and interpret its  
advice properly. With  
perfect wisdom and  
infallible knowledge,  
all that remains is to  
have the control,  
passion and diligence  
required to follow the  
proper course. These are  
the underpinnings of our  
society, and so our race  
is able to use the Codex  
wisely and well. This is  
the reason why the Codex  
exists: to lead the  
gargoyle race to  
ultimate prosperity.
